HLPF 2020 SIDE EVENT

The United Nations Industrial Development Organization, the Vienna Energy Forum, and The World in 2050 initiative by the International Institute for Applied Systems Analysis are delighted to invite you to a High-level Political Forum 2020 Side Event on Innovation for the Sustainable Development Goals (SDGs) and a Sustainable Recovery.

In light of the current COVID- 19 pandemic, the world must not lose sight of the efforts towards the achievement of the Sustainable Development Goals.

In this respect, innovation emerges as a pivotal path towards the creation of sustainable societies for all and the mitigation of environmental impact at all scales.

This Side Event will explore the promise of economic stimulus packages to ignite and leverage innovation in technology, behaviors and institutions, and guide humanity towards sustainability.
